

» What we do against Covid-19 to make your stay as safe as possible!

- Daily disinfection of public areas, door handles, handrails and any items in general/ frequent use.
- Disinfectant dispensers are available at all entrances and exits.
- Daily disinfection of public areas, door handles, handrails and any items in general/ frequent use
- More intensive ventilation of our rooms, especially the restaurant, foyer/reception area, staff accommodation, offices etc.
- The prescribed minimum distance of 1.5m applies throughout the hotel.
- Our employees and suppliers have a general duty of mouth protection.
- The inclusion of contact details and the time of arrival and departure of the restaurant are mandatory. The data is only used for tracing infection chains, stored for three weeks and then destroyed by us.
- For buffets, the minimum distance and the wearing of a mouth and nose cover must be observed.
- The minimum distance of 1.5 m is taken into account by us in the seating in the conference and event room as well as in joint activities.
- Query of the contact details of all participants of an event/conference (address, telephone number, email address). The data is only used for tracing infection chains, stored for three weeks and then destroyed by us.

Should new restrictions arise due to COVID-19, we would be happy to find an alternative date for you to carry out your planned event. We reserve the right to adapt the measures in accordance with the requirements of the state government. Please take note of the current Lower Saxony Ordinance on the reorganization of measures against the spread of the corona virus SARS-CoV-2.
